Heat the People — ...where the people are  
Heat the Empty Space — ...where the people are not

### LOW INTENSITY INFRARED

RE-VERBER-RAY heaters are Design Certified by the American Gas Association

The largest selection in the industry!

**\$500 REBATE** Per Low Intensity Infrared (up to 5 heaters) - visit [www.gasnetworks.com](http://www.gasnetworks.com)

#### DR SERIES

- Exclusive RE-VERBER-RAY ceramic burner provides maximum conversion to infra-red radiation.
- Rugged non-corrosive materials used in construction
- Proven design with over 2,000,000 burners in use.
- Design Certified by the American Gas Association/accepted by F.I.A. and F.M.
- 10 year burner warranty
- Multitude of controls, including: Direct Spark Ignition, Millivolt and Spark Pilot Ignition.

#### TUBE HEATERS

- Configurations ranging from 10'-25' MISTU/11 to 80'-200' MISTU/11
- Modular design, self contained low intensity tube type.
- Positive, or negative pressure systems in various patterns.
- Delivers soft, even heat patterns to the floor levels.
- Common payback period of three years.
- Maximum heat at floor levels.
- Residential garage units are available.
- Five different series to choose from, including the HI. Series, a patented two-stage heater, which modulates between a high and low fire mode. This unit offers higher comfort levels at lower operating costs.
